MANAGEMENT OF HAZARDOUS WASTE – TRANSPORT, STORAGE, AND FOLOWING OPERATONS WITH HAZARDOUS WASTE, CLEANING,
REGISTRATED BROCCER AND TRADER OF WASTE IN THE EXSECUTIVE ENVIRONMENRT AGENCY UNDER № 176

DECLARATION FOR POLICY OF MANAGEMENT

Of the quality, environment, health and secure work

WE IN SIRIUS STAR BG LTD, TAKE THE RESPONSIBILITY TO MANAGE THE IMPACT, WHICH OUR
ACTIVITY HAS ON OUR HEALTH, SAFETY AND ENVIRONMENT.

This responsibility determinates the way of work of all working in Sirius Star BG Ltd.

We apply the existing law and actively take part in the achievement of the national goals, which are fundamentals of
our policy for quality, environment, health and safety during work.

We realize and measure the effect on us and on the environment by input of indicators for monitoring.

We are always looking a way to lower our effect, as we enforce the best ways and techniques and practices for:

- Lowering the pollution and releasing waste in the nature;
- Lowering the unneeded use of raw materials and use of energy;

We educate the working at Sirius Star BG Ltd to be responsible for the quantity, environment, health and safety when
working and we encourage them to take part in our system for management, also to implement a stable way of life.

We are in open dialogue with our workers and with all interested parties.

We wait from our deliverers and contractors also to demonstrate care for the nature and human health and to introduce
and work with programs for management of the environment, health and secure work.

We contribute for higher ecological thinking of our clients, as we stimulate them to use natural materials and to lower
the pollution of the environment during their activities – example by utilizing or recycling the waste and observe the
norms for secure work.

We are always in contact with the local communities and we strive to predict and to answer their needs for the critical
environment problems.

We take part in public dialogues and discussions for the environment, health and secure work.

We strive to lower the negative impact to the environment and health of our workers by performing activities for
lowering the risk of accidents.

Keeping our principals we introduce to the territory of Sirius Star BG Ltd every process of our work, activities and
services, systems for management of the quality, environment, health and secure work responding to the international
standards ISO 14001, ISO 9001 and BS OHSAS 18001.
